

oxano®

bindegewebe*

Nutritional Supplement providing Amino Acids, Vitamins, Magnesium, Trace Elements and Bamboo Extract

Nutrients for the Connective Tissue (-> Bindegewebe).

Sportsmen - as well as all other active people - need an efficient connective tissue to be able to release the desired performance. But In the course of the normal ageing process, the efficiency of the connective tissue decreases. Therefore, a sufficient supply of those vital substances which are needed by the connective tissue, is essential for all age groups, especially for sportsmen and active people.

*) Manganese contributes to the normal formation of connective tissue, copper contributes to the maintenance of normal connective tissue.

Vitamin C contributes to normal collagen formation for the normal function of bones, cartilage and skin.

Bamboo extract provides a high portion of silicium.

Additionally, **oxano®bindegewebe** provides the amino acids arginine, lysine and glutamine.
