

oxano®

haaraktiv*

Micronutrients for Activating the Hair Root and Supporting Hair Growth

Nutritional Supplement with Biotin

Stress or an unbalanced diet can lead to a reduced supply of nutrients to the hair roots. As a result, the hair loses elasticity and fullness, and split ends and hair breakage or increased hair loss occur more easily.

Only **oxano®haaraktiv by Müller-Wohlfahrt** contains the hair vitamin **biotin** in combination with **collagen hydrolysate**, **silicium** from bamboo extract and the **amino acids** L-arginine, L-glutamine und L-lysine.

Biotin and **zinc** contribute to the maintenance of normal hair and skin, **copper** to the maintenance of normal hair and skin pigmentation and to the maintenance of normal connective tissue.

Manganese contributes to normal connective tissue formation, **vitamin C** to normal collagen formation.

The nutrients vitamin B1 to B6, vitamin E and magnesium round off the **formula for hair, skin and connective tissue**.

<u>Nutrients</u>	per Daily Intake (7.5 g Powder)	% NRV**
Collagen Hydrolysate	5.5 g	--
Biotin	200 µg	400 %
